

Abnormal Twins Years

Chapter 89

Translator - Doge

Cleaner - Yamhi

Typesetter/QC - Hyakki

47th Kingdom Year
Outskirts of the Forest of
the Mering Beasts

One human...

...whose I look
but dangerous.

Can kill all from
one individual.

Ushak that can't
even speak

What's that?
Did that happen
again?

Where did my
gold pouch go?

I can't live
there. I'll have to
travel...

Don't worry

Abide in the Wind

Lyrics by Karen Marie Williams

Vocals: Karen Marie Williams

I was scared.
How could I let
this happen?
I must kill him before
he starts talking...

A girl shouldn't be
watching around here!
It's dangerous.

Both the frogs and I also
are responsible for protecting
the outskirts of the forest.

The elders teach us

to leave all bananas on night if
we happen to encounter them.

That's why they don't want
to interact with humans.

This is a good dog.
It's very good at
protecting people.

I wonder who?

Human... human...

I thought they had
some type of connection
to humans...

But then again that
isn't true.

Today if you want to
see them, he would be a
very nice dog at home.

They're still
better than the
ones that can't
talk, though.

That's true.
I would have been
in big trouble
without him.

This is all my
fault if you see...

Have you
met our gold
miners before?

Gold miners?

Well I guess
they'd be found to
mine minerals in
these parts.

With the
currency exchange
rate...

You could probably
afford to pay around
for a few miners, with
good rates of return.

Humans eat three
yellow stones?

I see that too
Roko? Can you even
eat those stones?

You don't just
leave someone alone

It's just like a
to someone. That's how
you hold on to them
your feelings!

You are so strong,
why not let them
feel something?

Truly,

Is it better to
leave or stay?

Of course

I know where
a ton of that is.

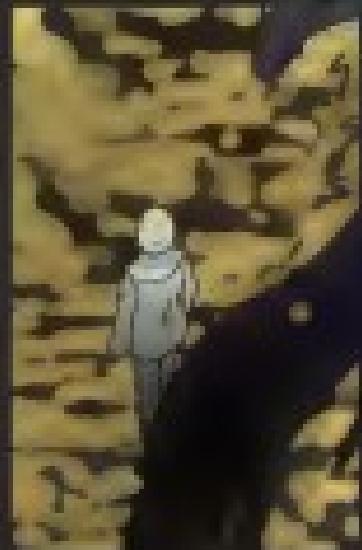

What is this...?

Can you trade
with this amount?

Anything... You
can do something with
this much...

Finally!

Of course...

Then I'll take your
life as payment.

So humans place value on
this yellow stone thing?

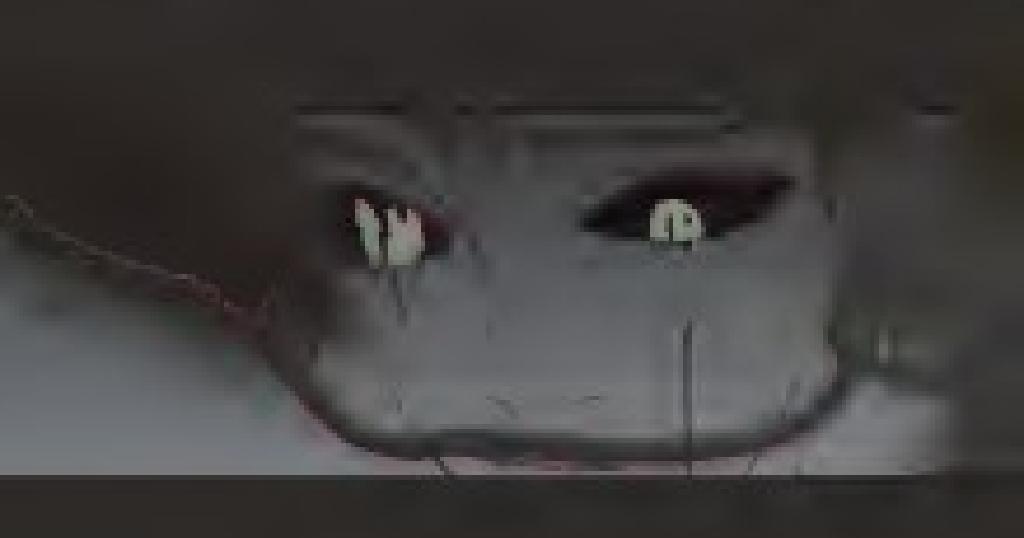

What's taking
her so long
this time?

Now really, I should
be alone by now.

If humans are the reason that the dragons left,

can't we use humans to become strong again?

The future
is looking very
humorous.

No. But I
think that humans
are different.

Human's always one
second off the
targeted deadline.

It'll become
I just seem
kind of press?

Or did she
want off the
humorous zone?

Based on last day.

Sister! I can speak!

KICK

Don't move around.

Even if you were a human's friend, you're still an adult.

Know your place

Afterwards, I started to transform aduk into humans.

It's long, you don't
think we'll live.

Milking was there
on a mission before

Araking them invisible
because he could... a good life

They don't
have room to
live here...

...and their
current population

This will
only work with
humans

She had
second thoughts of her
leaving the forest in the
afternoon

They can
only travel in the
forest but...

If we must use them no matter what,

then PU just establish a
base in the human world...

using the [Mangafan.com](http://www.mangafan.com) human world forums.

I will not allow it!

ONE MANGA!

You are
far too young!
You do not know
the humans!

Even if you
are able to do so,
you will fail.

I will not let
you go to the
human world!

If you have the
time to do that, find
the Dragon!!

CLANG!

Why do the elders fear humans so much?

I know there are a few humans who are above average,
but the Imagi are superior to them all!!

Instead of searching around

for a dragon that might not even exist

I want to create a future with my own two hands!!

I know you would
come for me

Now it's time
they deserve
Helen just
after all

Leave with a smile

I received
permission from
the others

Teethed
a lot, too.

You know our
brother. The one who
could take on a human
form, thanks to you.

The others, having
acknowledged his skills,
granted him a name and
assigned him to Satnick.

Stop right
there.

I only have
one sibling, and that
belongs to you.

Thought of this

Shame

Condemnation,
Sugestion of Punishment,

The suggestion is to turn the thought
into energy and change
The Punishment.

I cannot acknowledge
weaknesses, life must
become stronger!

We must use any
method possible to
get stronger!

*Afterwards I came to the
realized world to create life*

*Knowing that I had my brother
who was just like me*

*I made me happy
I know I wasn't alone*

He is my source of strength that stops me from going astray

the one who sniffs my heart for a nose

Lady Karin,
could Sir Mug
possibly be...?

Show up! Don't
assume things without
hard evidence!

Mug is not a
failure like you!

I don't need
your suggestions or
assumptions!

HUFF

Don't lose hope.

Mage is still alive.

We're the same, after all.

He's as strong as I am.

There's no way he would've
lost to the humans.

The human's potential.

LORE MANGA

I'm a complete Ennaji, unlike the uduk.

Ennaji is a traditional instrument from the Malabar region of India, known for its distinctive sound and unique construction. It consists of a long, narrow neck with a single string, often made from a coconut shell or a gourd. The instrument is played by plucking the string with the fingers or a plectrum. The sound is characterized by a deep, resonant tone with a distinct timbre. Unlike the uduk, which has a more complex structure with multiple strings and a larger body, the Ennaji is a simpler, more direct instrument. Its name, "Ennaji", is derived from the Malayalam word "ennai", which means "one".

I am not weak.
